# Dual-sided Mouse Pad

## Precision vs. Speed

www.coolermaster.com

- Dual-sided polycarbonate mousing surface provides two distinct performance modes: smooth side for SPEED / rough side for PRECISION

- Made of a very durable and sturdy anodized aluminum
- Oversized (264.16 x 330.2 x 2.54 mm) and uniquely shaped
- Compatible with optical, laser and ball mice

- Non-slip rubber base

- SPEED side (smooth) for high-sensitivity users, like gamers
- Figure design originates from Chinese character and the comet trajectory in the sky

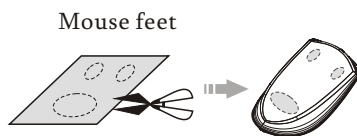

- PRECISION side (rough) for low-sensitivity users, like graphic designers
- Figure design originates from Chinese character and the front sign (of a gun)

### Package contents

1. Dual-sided mouse pad
2. Includes self-adhesive mouse feet (super-slick Teflon pad reduces friction between mouse and mousing surface)

Model no.

R8-PEA-DUAK-GP
