

## 100% PROTECTED USB STICK

Your business and personal files always and automatically 256bit AES encrypted. Never worry about unauthorized access.

**EASY TO USE**  
TYPE IN YOUR PASSWORD -  
ACCESS YOUR FILES

*Research shows that most people forget to use data protection software, but feel they should have when they have lost a memory stick or hard drive. The DataBar Secure makes that decision for you....*

# DATA BAR SECURE

PASSWORD PROTECTED USB STICK / USB 2.0

### Freecom DataBar Secure USB 2.0

- Password protected USB Stick
- Files are protected by the most advanced security technology
- Impossible to crack 256bit encryption
- Unique "Don't Forget me" reminder when you log off or shut the computer down
- Save, access and share data with colleagues and friends
- Slimline design allows direct placement next to other USB devices
- Available in capacities from 8GB up to 64GB
- Ideal for storing confidential files such as documents, spreadsheets and presentations

### Ideal for home and office use

#### Home use:

- Store all your digital photo's, music, movies, games
- Take the Freecom DataBar Secure with you and share your files with friends

#### Office use:

- Store your spreadsheets, documents, presentations
- Take the DataBar Secure home or on the road and work on your files away from the office
- Share data between computers and networks
- Use the Freecom DataBar Secure for software installations/updates on multiple PC's

### Freecom DataBar Secure: Hit the streets, feel safe

Store your data safely on the Freecom DataBar Secure. Secured with your personal password, not accessible by anyone else. Always. Everywhere. The DataBar Secure always asks for a password before it reveals its treasures.

You may not have a lot to hide but think about it: if you accidentally lose your USB Stick, somebody somewhere could be watching your last work files or even your holiday pictures. Not a very comfortable feeling. That's why Freecom has developed the 100% protected DataBar Secure. Research shows that most people forget to use data protection software, but feel they should have when they have lost a memory stick or hard drive. The DataBar Secure makes that decision for you. It continuously protects your data! Exactly what you need.

### Makes you remember...

You will always remember to take the DataBar Secure with you - when logging off or shutting down the computer, a message will pop up on your monitor, reminding you to take your USB Stick with you. Functionality and safety. Hit the streets and feel safe.
