Live the digital life in stylish simplicity!

Freecom MediaPlayer-3

- The first dedicated harddrive 3,5" based portable multimedia player, that can be used as:
 - *Movie Player*: store and play back DivX/MPEG-4 movies in DVD quality
 - *Music Player*: store and play back MP3, WMA, OGG Vorbis music files
 - *Digital Photo viewer*: store and view JPEG pictures
 - *Portable Storage device*: can also be used as a fast USB 2.0 external harddrive
- Stylish, high quality design, fits perfectly in the living room, next to TV, projector or HiFi set
- Available in midnight black and ice silver
- Easy to operate via remote control or navigation buttons on the device
- Convenient graphical LCD display on the device for easy navigation
- Supports DTS & Dolby Digital 5.1 surround audio output through optical port
- The portable MediaPlayer 3 is 100% DivX certified, and thereby 100% compatible. DivX video technology, often called the "MP3 of video", has 160 million users worldwide; there are an estimated 2 billion DivX files in existence. DivX is a true leader in video compression technology
- Includes Dr. DivX video-encoding software, converts any video file (DVD, DV-movie etc) into a DivX file
- 2 years manufacturer's warranty and unlimited free helpdesk support

* based on a 250GB harddrive and average file sizes

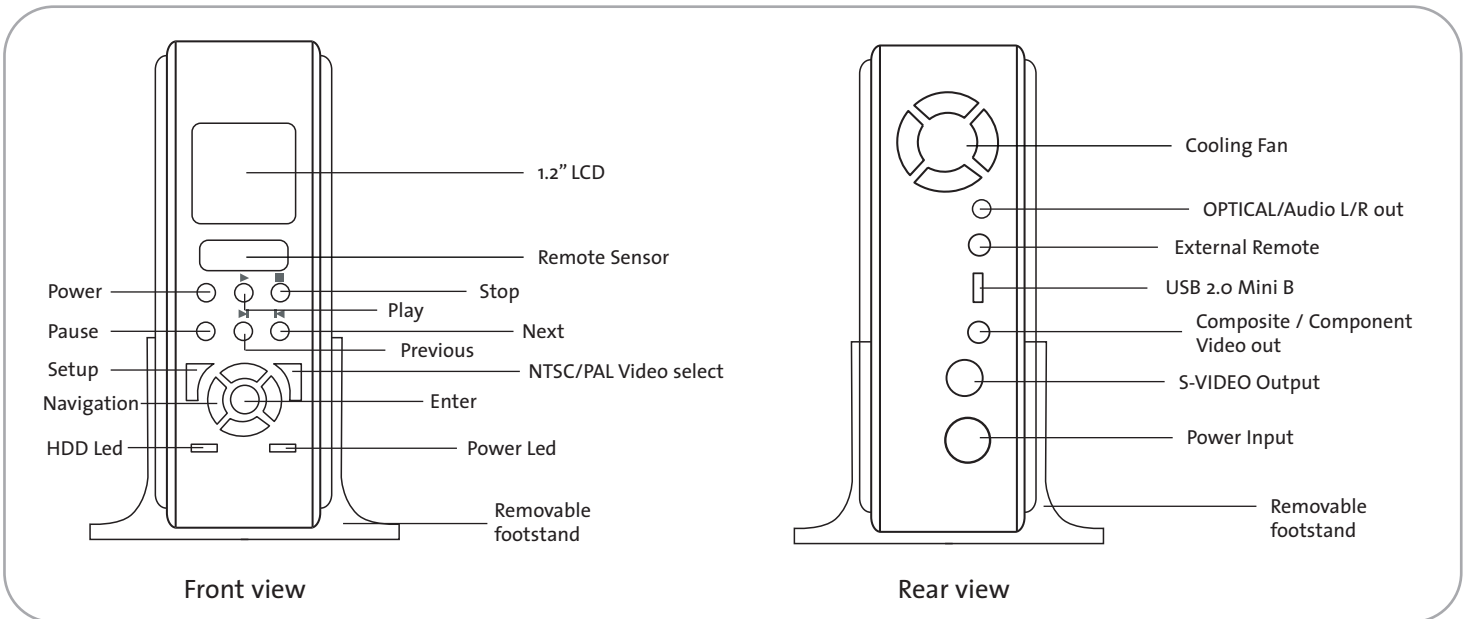

Breaking new ground.

Experience a new level of computing and home entertainment with the Freecom portable MediaPlayer-3, the player that covers all AV-file formats. The Freecom MediaPlayer-3 is a cost-effective, dedicated harddrive based mobile multimedia player that seamlessly delivers digital media (video, audio) from your PC to the television, projector or Hi-fi set. Enjoy digital media and information in the comfort of your living room. Freecom has now developed a fast hard drive, a JPEG viewer, a MPEG 4 video player and a MP3 music player, all in one unit! This new portable system is built for easy data sharing with friends and family. Enjoy your movies, songs and holiday pictures anywhere you go. Watching movies on a PC Monitor and listening to MP3 files on a small PC speaker system are now a thing of the past, as are difficult burning sessions creating CDs and DVDs. Simply drag and drop your audio and video files from your PC to the MediaPlayer-3, take the portable MediaPlayer-3 to your living room, connect it to your TV or HiFi and you're ready to go! Keep it simple!

How it works

- 1 Download and store movies, music and photos!
- 2 Take the portable MediaPlayer-3 and connect it to your TV or HiFi set!
- 3 Enjoy movies and photo's on your TV, music on your home stereo or use the MediaPlayer as a fast hard drive! No installation needed!

- Size matters..... for every 80GB of storage-capacity you can store up to 100 DivX movies, 17 DVD movies, 80000 Digital Photo's or 16000 MP3 songs.
- Freecom MediaPlayer-3 is firmware upgradeable, to ensure you always have the latest updates available.
- Freecom MediaPlayer-3 is powered by SigmaDesigns CPU, the leader in hardware solutions for digital video and audio.

TV Connection

PC Connection
