Product highlights

Magnetic Shielding

Because the powerful magnets in speaker drivers are magnetically shielded, there's no danger of image distortion or damage when placed close to your PC monitor screen.

For PC or Laptop

Can be connected to either a PC or a laptop

Music, games, films, internet

All types of music, games, films and internet audio sources can be played, so no matter what you want to hear, we make your multimedia experiences sound more involving than ever.

Home audio quality on the PC

Philips has used over 75 years experience at the leading edge of audio to create PC audio products with the same performance as our award-winning home audio systems.

75 Years of audio experience

Philips invented the CD, led the team that wrote the USB audio specification and has produced millions of audio systems, home cinema sets and TV's over many decades. As a leader in audio innovation, you can trust Philips to make PC sound systems of the highest sound quality.

Twin bass radiators

Bass radiators enable small speakers to reproduce bass frequencies more effectively without having to increase their size.

Tweeters

Using a high-end tweeter on each speaker box dramatically improves the reproduction of high frequencies. Music comes to life and movies sound like they were meant to, as the full range of high frequencies is perfectly reproduced.
