

Enterprise NAS HDD

Data Sheet

The first 8TB drive optimized for mid-range NAS, server and scale-out cloud storage

- Enterprise-class reliability and performance for cloud-based storage and NAS applications in 1- to 16-bay enclosures
- Backed by the Seagate® 5-Year Limited Warranty
- 1.2 million hours MTBF for enterprise-class reliability
- 300TB-per-year workload rating for mid-range NAS and cloud-based storage
- 7200-RPM spindle speed performance
- Double the cache size—256MB multisegmented on 8TB capacity
- Dual-stage actuators to deliver precision seeks every time
- SATA 6Gb/s interface for easy integration into NAS and RAID rackmount systems
- RV sensor for sustained performance and reliability
- Optional 5-year Rescue Data Recovery Service plan protects against data loss in NAS and RAID environments.

Best-Fit Applications

- Cloud-based and NAS storage
- Backup and disaster recovery
- Multi-media server and storage
- File and print server sharing
- Archiving and cloud replication
- On-premise private cloud
- Tiered storage
- Remote access
- Virtualization
- Auxiliary storage

Enterprise NAS HDD

1 One gigabyte, or GB, equals one billion bytes and one terabyte, or TB, equals one trillion bytes when referring to drive capacity.
 2 Seagate recommends validating your configuration with your HBA/RAID controller manufacturer to ensure full capacity capabilities
 3 Supports Hotplug operation per Serial ATA Revision 2.6 specification.
 4 These base deck dimensions conform to the Small Form Factor Standard (SFF-8201) found at www.sffcommittee.org. For connector-related dimensions, see SFF-8223.
