Breaking new ground.

Experience a new level of computing and home entertainment with the Freecom portable MediaPlayer-35, the player that covers all AV-file formats. The Freecom MediaPlayer-35 is a cost-effective, dedicated harddrive based mobile multimedia player that seamlessly delivers digital media (video, audio) from your PC to the television, projector or Hi-fi set. Enjoy digital media and information in the comfort of your living room. Freecom has now developed a fast hard drive, a JPEG viewer, a MPEG 4 video player and a MP3 music player, all in one unit! This new portable system is built for easy data sharing with friends and family. Enjoy your movies, songs and holiday pictures anywhere you go. Watching movies on a PC Monitor and listening to MP3 files on a small PC speaker system are now a thing of the past, as are difficult burning sessions creating CDs and DVDs. Simply drag and drop your audio and video files from your PC to the MediaPlayer-3, take the portable MediaPlayer-3 to your living room, connect it to your TV or HiFi and you're ready to go! Keep it simple!

* Streaming via network not possible on Mac
