Extend Internet access to any power outlet

Ideal for streaming HD multimedia & IPTV

Convenient extra outlet & compact design

- THE NETGEAR DIFFERENCE - XAVB1601**
- ✓ Compact pass-thru Powerline adapter
 - ✓ Convenient filtered power outlet
 - ✓ Pick-a-Plug diagnostics for simple troubleshooting
 - ✓ Push-and-Secure for easy secure connection
 - ✓ Energy saving features

PRODUCT OVERVIEW

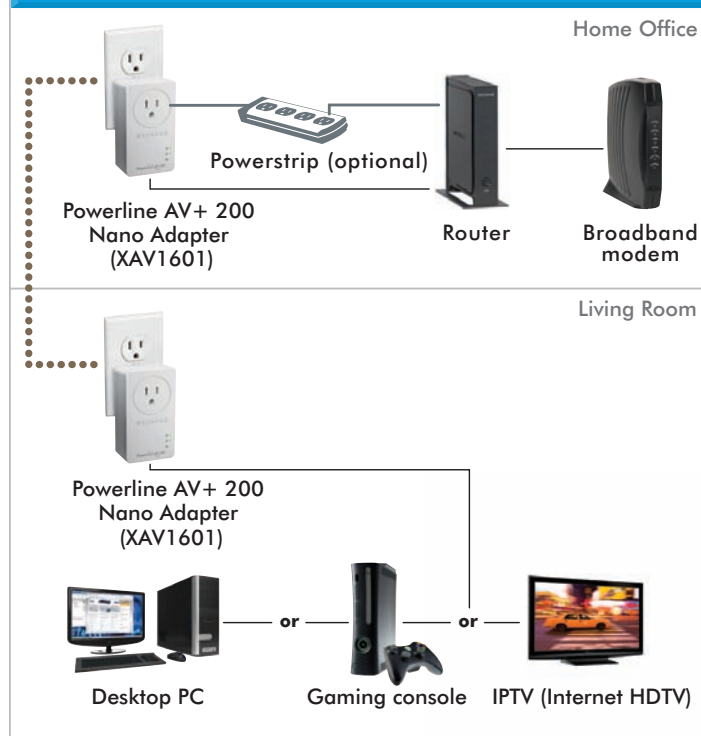

The NETGEAR Powerline AV +200 Nano Set extends a high speed Internet connection to any power outlet. Perfect for connecting HDTV's Blu-ray™ players, DVR's, PC's and game consoles to your home network and the Internet. Easy setup, just Plug-and-Play. Extra outlet ensures you have room to plug in a power strip for all your home office or home theater devices.

- **Compact design** — Convenient nano-design uses less space on the wall outlet
- **Extra outlet** — Special noise filtering pass-thru outlet for use with other devices
- **Extend your Internet connection** — Extend a wired broadband Internet connection to any electrical outlet in the home. Perfect for desktop PCs, gaming consoles and set-top boxes.
- **Plug-and-play** — Sets up in minutes, no need to configure or install software
- **High-speed connections** — Speeds up to 200 Mbps enable Internet applications such as multiplayer gaming
- **Push-and-Secure** — Secures the Powerline network connection with the touch of a button, no need to remember passwords
- **Pick-a-Plug diagnostics** — Automatically tests the connection at any electrical outlet to ensure the highest possible performance
- **NETGEAR Green features** — Automatically powers down and turns off LEDs when not in use; less than 1 Watt in stand-by mode; packaging made from 80% recycled material.

This product is packaged with a limited warranty, the acceptance of which is a condition of sale.

* Basic technical support provided for 90 days from date of purchase.

¹ Requires use of HomePlug AV compatible Powerline device (two XAV1601 devices included).

² For a complete list of HomePlug AV certified devices, please check www.homeplug.org/certified_products.

³ Do not plug devices into the XAV1601 filtered AC outlet that exceed the product ratings. The output voltage of the filtered AC outlet is the same as the power outlet which the XAV1601 is plugged into. To help avoid damaging your system, be sure that the attached devices are electrically rated to operate with the power available in your location.

[†] Actual data throughput and coverage will vary. Network conditions and environmental factors, including volume of network traffic, building material and construction, and network overhead, may result in lower actual data throughput rate and coverage.

[†] Average throughput gain in typical homes when comparing 500 Mbps vs. 200 Mbps powerline technology.

Outlets must be electrically connected in order for Powerline devices to provide a network connection between them.
