Certified and Reliable, with Outstanding Value. That's What Distinguishes ThinkServer® Options from the rest.

Your network data is a strategic asset and to protect that asset you demand powerful, reliable hard drive choices. You need no-compromises performance, superior reliability-all at prices easy on your budget. ThinkServer storage options are tested for durability, easy to install, and easy to configure. Our HDD options provide cost-effective scalability and expandability-perfect for your growing business. Choose from cost-effective SATA, high-performance SAS, or blazing-fast SSD. No matter your business needs, ThinkServer hard drives deliver the performance, reliability, and capacity you demand.

WHY CHOOSE THINKSERVER-CERTIFIED HARD DRIVE OPTIONS?

- Only ThinkServer® hard disk drive (HDD) options have unique firmware created specifically for ThinkServer® rack and tower servers.
- Only ThinkServer® HDD options are designed expressly with ThinkServer® models, with clever ergonomic drive cradles that make maintenance a snap.
- Only ThinkServer® HDD options are the same drives that are worthy enough to ship standard with a ThinkServer®.
- Only ThinkServer® HDD options are rigorously tested and certified for use with Lenovo® rack and tower servers. Rest easy. They're from the makers of Think products.

WHAT'S THE RIGHT HARD DRIVE SOLUTION FOR YOU?

- Choose 3.5" SATA drives where you demand value-focused storage solutions. These offer an unbeatable combination of high scalability yet budget-friendly prices.
- Choose 2.5" SAS drives when performance is your priority — you demand lightning-fast access to your data to meet the demanding needs of your network. Our ThinkServer® racks can support up to 16 2.5" drives.
- Choose 2.5" SSD drives when absolute highest performance and reliability are non-negotiable. ThinkServer® offers SSD drive choices for a wide array of our rack and tower servers.
